Realtime Link for Staff ™

Staff

Now you can put the most vital, up to date student information into the hands of staff members with the Realtime Link for Staff mobile app. Staff members can update student Attendance & Discipline with ease, view staff, and student schedules, and update checkpoints during a Reunification Event.
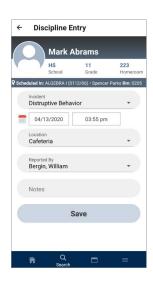

Comprehensive Attendance
The Realtime Link for Staff app permits staff to update student Daily, Period, and Event Attendance from any mobile device. Student IDs can be scanned to update daily student attendance. Teachers can take period attendance without interrupting lessons. Record ad hoc event attendance for students during a fire or other drills, on a bus, or at events such as field trips, athletic events, pep rallies, or any other district defined event.

View Schedules
The app gives staff access to their schedule and student schedules at any time. From their schedule, staff can enter Daily Attendance by Homeroom or update Course Attendance. Hall monitors can view student Currently in Scheduled status and update their Daily Attendance.

Discipline Quick Entry
Discipline Incidents can be recorded at the time and place they occurred with Discipline Quick Entry. Staff can select from a district defined list of Incidents and Incident Locations, add notes, and save to the student Discipline Log for Resolution.

Reunification Events
Activate the mobile Staff App to maximize the potential of staff using Event Attendance to take student attendance during a Reunification Event. Create a Checkpoint location and scan student IDs with a mobile device. Students can be added, updated, annotated, and released to contacts in Realtime all from the mobile Staff App. Contact and medical warnings can be displayed as necessary.
