

Online Payments

PaySchools is the most trusted name in payment processing for K-12 schools, it integrates seamlessly with Realtime!

HOW PAYSCHOOLS WORKS WITH REALTIME

Realtime users can add PaySchools software to handle lunch, childcare and fee payments. If you like Realtime, you'll like it even more with PaySchools integration.

Families pay for lunches, childcare, and fees using PaySchools Central. You can also record any payments parents make in your front office.

All data is synchronized securely and immediately between PaySchools Central and Realtime. The two systems integrate behind the scenes, giving you one seamless solution for student information and secure payments.

Authorized staff can view and manage all the combined data with PaySchools Admin. and Realtime's reporting.

LET'S TALK

To add a comprehensive online payment solution, contact us to discuss how Realtime's integration with PaySchools will help your district!
