

# Realtime Link for Students™

*Successful schools effectively communicate with students. With Realtime Link for Students™, students are seamlessly connected to the information they want and need with the convenience of a Mobile App. Realtime Technology is there where you need it and when you need it.*

## Convenient, and Powerful

Through the secure Realtime Link for Students™, Realtime creates the option for students to obtain up to the minute student information, and district communications, with the everyday ease of a mobile application. Students can access their information at any time and even use the app to replace their printed student id for scanning. Student IDs are available to be downloaded for offline use.

## Flexible and Secure

Districts may customize Realtime Link for Student with images, fonts, text, headings and district and school specific features to create a unique user environment. The information that is accessed, the functions allowed, and the individuals permitted to access Realtime Link for Students™ is consistent with the parameters set by the district for the Realtime Portal. Touch ID logon (when available) via a mobile device provides added security.

Students can access the Realtime Portal and then download the free App from the Apple App Store or Android Google Play and customize it for their use. The App provides students with district notifications and student information that are available to them on the Realtime Portal.

## Notifications

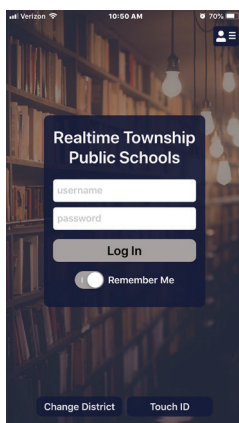

Students can select which information based notifications to receive notifications are set to be received at a certain time of day. Push notifications include: Cafeteria Low Balance | Daily Attendance Gradebook | Assignment Posted | Assignment Graded Overall Grade Changes | Discipline | District Communication

## Student Information

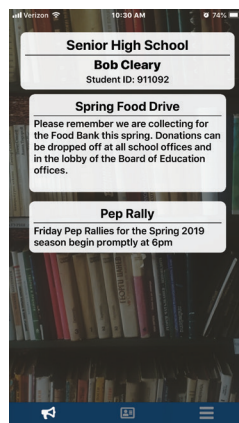

Information from the Realtime Portal may be viewed using the convenience of Realtime Link for Students™: student attendance, gradebook information, schedule, report card, are some examples of the information available.

## Just one more reason to choose Realtime

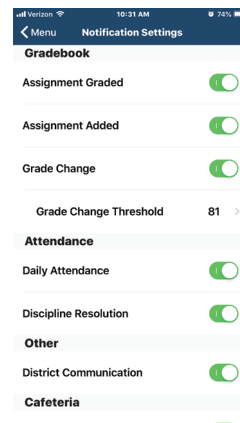

More powerful, more convenient and more secure access to cutting edge technology is what makes Realtime the only choice for your school district, faculty, students, parents and community.
